Insurrection in India (2024-2025)

By Leon Trotsky

I. On Sirohi, a Jewish Young Prophet, recently trained in Jewish Politics

In fact then Sirohi is a true militant. He is known for being a economist in Europe and a philosopher as well.

Sirohi then is instead – a radical militant.

I mean to intervene in the philosophy of Hegel today, Sirohi as young dialectician who is uprising against Hegel and is the new Major philosopher.

Sirohi is though a radical militant.

II. Practice of Sirohi

Just the fundamental contradiction and the secondary as also important. What is called Mao, being the secondary as principal alone and us in Soviet Union being only the fundamental contradiction and then some alliance with some peasants.

III. Lenin and Trotsky, with Mao Today – on Belligerence

Sirohi daily attacks the bourgeois class, and announces the good news of the people. He argues it is Being and Time but with simple daily Acts instead of lyricism that is our militant image of life in the future.

I mean Heidegger is too ontic, Sirohi is correctly ontic and then more importantly ontological.
